

Four courses that will make a difference in your classroom

Experience the difference

See how these four ETFO Credit Courses – among many others – can make an immediate difference in your classroom and improve your placement on the salary grid.

Collaborative Inquiry for Students: Preparing Minds for the Future™: Coming this summer, this course introduces the techniques of collaborative learning. You'll discover strategies for teaching collaboration, teamwork, and decision making based on the TEAM model. These techniques will open your students' minds to new ways of learning.

Differentiated Instruction for Today's Classroom™: This course shows you how to make DI come alive in your classroom by helping you reach all children in a meaningful way. You'll create powerful learning experiences that engage and motivate students.

Classroom Management: Orchestrating a Community of Learners™: This course will teach you how to end behavioral and organizational issues and minimize student misbehaviour. Bring a positive learning environment to your classroom.

Reading Across the Curriculum™: Every student needs to be a good reader. This course gives you the tools you need to support that goal.

Experience success today

ETFO Credit Courses help you gain knowledge and practical experience through our face-to-face, fun, classroom environment.
