Courses that will change the way you teach

See results now

This summer's three most popular courses are getting rave reviews. Take a class this fall to see what people are talking about.

Collaborative Inquiry for Students: Preparing Minds for the Future™:

This innovative course introduces the techniques of collaborative learning. You'll discover strategies for teaching collaboration, teamwork, and decision making based on the TEAM model. These techniques will open your students' minds to new ways of learning.

Differentiated Instruction for Today's Classroom™: This course shows you how to make DI come alive in your classroom by helping you reach all children in meaningful ways. You'll create powerful learning experiences that engage and motivate students.

Successful Teaching for Acceptance of Responsibility®: Learn new techniques to eliminate irresponsible student behavior. Your students will learn that they own their behaviour and problems. Empower your students and your teaching to achieve positive results.

Experience success today

ETFO Credit Courses help you gain knowledge and practical experience through our face-to-face, fun, classroom environment.

Each course is recognized as a half-credit by QECO. See our website for details. Register now at etfocreditcourses.ca
